NEUROSCIENCE AND BIOBEHAVIORAL REVIEWS

VOLUME 2 1978

SUBJECT INDEX

ACTH
  behavioral influences, methodology, 311
Addiction
  opioids and self-stimulation, 115
Aggression
  brain monoamine activity patterns, 101
  neural and environmental antecedents, 33
  ultrasound communication in myomorph rodents, 1
Amphetamine
  central mechanisms and anorexia, locomotion and stereotypy, 89
Anastomosis
  history of nerve regeneration, 27
Anorexia
  amphetamine central mechanisms, 89
Attack
  control by brain stimulation, 33
Attention
  behavioral influences of ACTH and MSH, 311
Autoregeneration
  history of nerve regeneration, 27
Axotomy
  history of nerve regeneration, 27

Behavior, theory
  neurophysiological, rest principle, 357
Bile acid
  production of maternal pheromone, 277
Biogenic amines
  effect of protein malnutrition, 137
Biomagnetic effects
  bird orientation, 255
Bird orientation
  geomagnetic field and biomagnetic effects, 255
Book review
  chemical transmission, 123
  learning mechanisms and eating, 127
  neuropeptides and behavior, 125
  psychopharmacology, 71
Brain
  frontal cortex, 281
  insular cortex, 271
  lateral hypothalamus, 281
  medial septum, 301
  mediodorsal thalamic nucleus, 271
  olfactory bulb, 281
  prefrontal cortex, 271
  raphe, 59
  reticular formation, 281
  substantia nigra, 281
  VMH, 339
Brain critical periods
  effects of protein malnutrition, 137
Brain damage
  ontogeny of eating and drinking, 281
Brain development
  protein malnutrition in rat, 137
Brain growth spurt
  effects of protein malnutrition, 137
Brain monoamine activity
  patterns and aggression, 101
Brain stimulation
  noxious stimulation and attack, 33
  reinforcing stimulation and attack, 33

Cholecystokinin
  status as satiety hormone, 79
Communication
  ultrasound in myomorph rodents, 1
Courtship
  ultrasound communication in myomorph rodents, 1
Cytoarchitecture
  definition of insular cortex, 271

Degeneration
  history of nerve regeneration, 27
Desensitization
  neurophysiological theory of behavior, 357
Dopamine
  brain activity patterns and aggression, 101
Dreams
  neurologic mechanisms, 59
Drinking
  genetic mechanisms, 15
  ontogeny of and early brain damage, 281
Drinking patterns
  analysis of variance of intervals, 301
Drug
  amphetamine, 89
  LSD, 59

Eating
  genetic mechanisms, 15
  ontogeny of and early brain damage, 281
EEG activity
  protein malnutrition, 137
Electro-ontogenesis of brain
  effects of protein malnutrition, 137
Endocrine problems
  molecular theory in *ob/ob* mice, 231
Exploration
  determinants of, 235

Fear
behavioral influences of ACTH and MSH, 311
Feeding motivation model
hypothalamic hyperphagia, 339
Feeding patterns
analysis of variance of meal size, 301
Frontal cortex
early brain damage and ontogeny of ingestion, 281
Functional recovery
history of nerve regeneration, 27

Genetics
regulation of eating and drinking, 15
Geomagnetic field
bird orientation, 255

Habituation
neurophysiological theory of behavior, 357
Hallucinations
LSD, 59
neurologic mechanisms, 59
Hedonic action
opioid and rewarding brain stimulation, 115
Hormone
ACTH, 311
cholecystokinin, 79
MSH, 311
Hypothalamic hyperphagia
feeding motivation, 339
Hypothalamus
cholecystokinin and satiety, 79

Inbred strains
genetic control of eating and drinking, 15
Insular cortex
relation to prefrontal cortex, 271

Lateral hypothalamus
early brain damage and ontogeny of ingestion, 281
Learning
ultrasound communication in myomorph rodents, 1
Locomotion
amphetamine central mechanisms, 89
LSD
relation to hallucinations, 59

Maternal pheromone
protection against necrotizing enterocolitis, 277
Medial septum
lesions and variance in meal patterning, 301
Mediodorsal thalamic nucleus
projection to cortex, 271
Memory
behavioral influences of ACTH and MSH, 311
neurophysiological theory of behavior, 357
Methodology
behavioral influences of ACTH and MSH, 311
Monogenists
history of nerve regeneration, 27
MSH
behavioral influences, methodology, 311

Necrotizing enterocolitis
protection against by maternal pheromone attraction, 277
Neophobia
determinants of, 235
Neotic behavior
determinants of exploration and neophobia, 235
Neural regeneration
history of, 27

Non-REM sleep
dreams and hallucinations, 59
Norepinephrine
brain activity patterns and aggression, 101

Obesity
genetic control of eating and driking, 15
molecular theory of in *ob/ob* mice, 231
Olfaction
communication in myomorph rodents, 1
Olfactory bulb
early brain damage and ontogeny of ingestion, 281

Pheromone
communication in myomorph rodents, 1
maternal, protection against necrotizing enterocolitis, 277
Polygenists
history of nerve regeneration, 27
Prefrontal cortex
definition of, 271
Prolaction
production of maternal pheromone, 277
Pro-opiocortin
molecular theory of endocrine problems, 231
Protein malnutrition
effects on CNS development in rat, 137

Raphe
relation to dreams and hallucinations, 59
Reinforcement
neurophysiological theory of behavior, 357
opioids and self-stimulation, 115
REM sleep
dreams and hallucinations, 59
Reticular formation
early brain damage and ontogeny of ingestion, 281

Satiety
status of cholecystokinin, 79
Self-stimulation
opioid facilitation, 115
Serotonin
brain activity patterns and aggression, 101
relation to dreams and hallucinations, 59
Sex behavior
ultrasound communication in myomorph rodents, 1
Sleep
effects of protein malnutrition, 137
Stereotypy
amphetamine central mechanisms, 89
Sterility
molecular theory of in *ob/ob* mice, 231
Stimulus novelty
determinants of exploration and neophobia, 235
Substantia nigra
early brain damage and ontogeny of ingestion, 281
Synaptic strength
neurophysiological theory of behavior, 357

Tolerance
opioids and self-stimulation, 115

Ultrasound
communication in myomorph rodents, 1

VMH
lesions and hyperphagia, 339

AUTHOR INDEX

ALMLI, C. R., 281

BARBEITO, R., 255
BECKWITH, B. E., 311
BRONZINO, J., 137

COLE, S. O., 89
COREY, D. T., 235

DARUNA, J. H., 101
DE CASTRO, J. M., 301

ESPOSITO, R. U., 115

FORBES, W., 137

HALL, R., 137
HAWRYLEWICZ, E., 137
HSIAO, S., 79
HUTCHINSON, R. R., 33

JACOBS, B. L., 59

KEMPER, T., 137
KILPATRICK, S. J., 277
KISSANE, J., 137
KORNETSKY, C., 115
KUTSCHER, C. L., 71, 123, 125, 127

MARGULES, D. L., 231
MARKOWITSCH, H. J., 271
MILLER, M., 137
MOLTZ, H., 277
MORGANE, P. J., 137
MUELLER, K., 79

NYBY, J., 1

NEUROSCIENCE AND BIOBEHAVIORAL REVIEWS

Editor-in-Chief

MATTHEW J. WAYNER

Brain Research Laboratory, Syracuse University, 601 University Avenue, Syracuse, N.Y. 13210, U.S.A.

Book Review Editor

CHARLES L. KUTSCHER, Brain Research Laboratory, Syracuse University, 601 University Avenue, Syracuse NY 13210

Editors

NORMAN T. ADLER, Department of Psychology, University of Pennsylvania, Philadelphia, PA 19104

C. ROBERT ALMLI, Department of Psychology, Ohio University, Athens, OH 45701

ROBERT BLANCHARD, Department of Psychology, University of Hawaii, Honolulu, HI 96822

MICHAEL CORNER, Netherlands Institute for Brain Research, Ijkujk 28, Amsterdam, The Netherlands

DONALD V. COSCINA, Biopsychology Research Section, Clarke Institute of Psychiatry, 250 College Street, Toronto, M5T 1R8, Canada

VICTOR H. DENENBERG, Department of Biobehavioral Sciences, The University of Connecticut, Storrs, CT 06268

DAVID EDWARDS, Department of Psychology, Emory University, Atlanta, GA 30322

JOHN L. FALK, Department of Psychology, Busch Campus, Rutgers University, New Brunswick, NJ 08903

JOHN L. FULLER, Department of Psychology, State University of New York, Binghamton, NY 13901

RICHARD GALOSY, Department of Cell Biology, University of Texas, Health Science Center, 5323 Harry Hines Boulevard, Dallas, TX 75235

GRAHAM GODDARD, Department of Psychology, Dalhousie University, Halifax, Nova Scotia, Canada

S. P. GROSSMAN, Department of Behavioral Sciences, University of Chicago, 5848 South University Avenue, Chicago, IL 60637

HAROLD KALANT, Department of Pharmacology, University of Toronto, Toronto, M5S 1A8, Canada

ABBA J. KASTIN, Chief, Endocrinology Section, VA Hospital, New Orleans, LA 70146 and Department of Medicine, Tulane University, School of Medicine, New Orleans, LA 70112

PHILIP W. LANDFIELD, Department of Psychobiology, University of California, Irvine, Irvine, CA 92717

ALAN I. LESHNER, Department of Psychology, Bucknell University, Lewisburg, PA 17837

JAMES L. MCGAUGH, Department of Psychobiology, University of California, Irvine, Irvine, CA 92717

PETER J. MORGANE, Worcester Foundation for Experimental Biology, 222 Maple Avenue, Shrewsbury, MA 01545

ROBERT D. MYERS, Department of Psychological Sciences, Purdue University, West Lafayette, IN 47907

YUTAKA OOMURA, Department of Physiology, Faculty of Medicine, Kyushu University, Fukuoka 812, Japan

MIKLÓS PALKOVITS, 1st Department of Anatomy, Semmelweis University Medical School, 1450 Tuzolto utca 58, Budapest IX, Hungary

SUSAN S. SCHIFFMAN, Department of Psychiatry, Duke University, Durham, NC 27706

CHARLES R. SCHUSTER, Department of Psychiatry, The University of Chicago, 950 East 59th Street, Chicago, IL 60637

ANTHONY SCLAFANI, Department of Psychology, Brooklyn College, Brooklyn, NY 11210

GEORGE SINGER, Department of Psychology, La Trobe University, Bundoora, Victoria 3083, Australia

BURTON M. SLOTNICK, Department of Psychology, The American University, Washington, DC 20016

J. E. R. STADDON, Department of Psychology, Duke University, Durham, NC 27706

RICHARD F. THOMPSON, Department of Psychobiology, University of California, Irvine, Irvine, CA 92717

JOHN G. VANDENBERGH, Department of Zoology, North Carolina State University, Raleigh, NC 27607

J. J. WARSH, Section on Neurochemistry, Clarke Institute of Psychiatry, 250 College Street, Toronto, M5T 1R8, Canada

BERNICE WENZEL, Department of Physiology, University of California, Center for the Health Sciences, Los Angeles, CA 90024

RICHARD E. WHALEN, Department of Psychobiology, University of California, Irvine, Irvine, CA 92717

Subscription, postpaid: $50 per volume for Libraries, Research Establishments and all other multiple-reader Institutions.
Private individuals whose departmental libraries subscribe may obtain this Journal for their personal use at a reduced rate of $15 per volume.

Publishing and Advertising Offices:
ANKHO International Inc.
7374 Highbridge Terrace, P.O. Box 426, Fayetteville, New York 13066 U.S.A.

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 2 NUMBER 1 SPRING 1978

CONTENTS

Ultrasonic communication of adult myomorph rodents. NYBY, J. and G. WHITNEY 1

Genetic mechanisms of drinking and feeding. RAMIREZ, I. and R. L. SPROTT 15

Early history of mammalian nerve regeneration. WEST, J. R. 27

Functional parallels between the neural and environmental antecedents of aggression. HUTCHINSON, R. R. and J. W. RENFREW 33

Dreams and hallucinations: A common neurochemical mechanism mediating their phenomenological similarities. JACOBS, B. L. 59

BOOK REVIEW 71

ANNOUNCEMENTS

Change of Title 73

June 7–9, 1978. Baltimore, Maryland. Eleventh Miles International Symposium 74

June 25–30, 1978. Zurich, Switzerland. Fourth Biennial International Symposium on Biological Research in Alcoholism 75

August 20–24, 1978. Dublin, Ireland. Ninth Congress of the International Society of Psychoneuroendocrinology 76

August 21–25, 1978. Boston, Massachusetts. Fifth World Congress on Psychiatric Surgery 77

September 4–9, 1978. Florence, Italy. Second European Neurosciences Meeting 78

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 2 NUMBER 2 SUMMER 1978

CONTENTS

Current status of cholecystokinin as a short-term satiety hormone. MUELLER, K. and S. HSIAO ... 79

Brain mechanisms of amphetamine-induced anorexia, locomotion, and stereotypy: A review. COLE, S. O. ... 89

Patterns of brain monoamine activity and aggressive behavior. DARUNA, J. H. ... 101

Opioids and rewarding brain stimulation. ESPOSITO, R. U. and C. KORNETSKY ... 115

BOOK REVIEWS

Hockman and Bieger (Eds.): *Chemical Transmission in the Mammalian Nervous System.* KUTSCHER, C. L. ... 123

Miller, Sandman and Kastin (Eds.): *Neuropeptide Influences on the Brain and Behavior: Advances in Biochemical Psychopharmacology.* KUTSCHER, C. L. ... 125

Barker, Best and Domjan (Eds.): *Learning Mechanisms in Food Selection.* KUTSCHER, C. L. ... 127

ANNOUNCEMENTS

August 20–24, 1978. Dublin, Ireland. Ninth Congress of the International Society of Psychoneuroendocrinology ... 131

August 21–25, 1978. Boston, Massachusetts. Fifth World Congress on Psychiatric Surgery ... 133

September –9, 1978. Florence, Italy. Second European Neurosciences Meeting ... 135

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 2 NUMBER 3 FALL 1978

THE EFFECTS OF PROTEIN MALNUTRITION ON THE DEVELOPING CENTRAL NERVOUS SYSTEM IN THE RAT

P. J. Morgane, M. Miller, T. Kemper, W. Stern, W. Forbes, R. Hall,
J. Bronzino, J. Kissane, E. Hawrylewicz and O. Resnick

CONTENTS

General Introduction 137
Malnutrition and the Brain 138
Brain Growth and Undernutrition 140
Aspects of Rehabilitation: Recovery of the Undernourished Brain 140

Methods 142
Breeding of Protein Malnourished Animals at the Worcester Foundation for Experimental Biology 142
Growth and Feeding 144

Neuroanatomical Studies 148
Effect of Malnutrition on Brain Weight and Configuration 149
Relative Size of Different Parts of the Brain 151
Regional Development of the Brain 152

Neurochemical Studies 161
Ontogeny of Biogenic Amine Metabolism in Brain and Peripheral Tissues in Protein Malnourished Rats 161
Tryptophan Availability for Indole Synthesis in Protein Malnourished Rats 163
Protein Synthesis and Malnutrition During Development 166
Developmental Utilization of Phenylalanine in Brain and Peripheral Tissues of Protein Malnourished Rats 168
Brain and Peripheral Utilization of Tryptophan in Developmentally Protein Malnourished Rats 171

Molecular Neurobiological Studies 174
Brain Mitochondrial Oxidation and Phosphorylation 174
Brain Adenine Nucleotide Concentrations 175
Isoenzymes of Brain Lactic Acid Dehydrogenase 176
Sodium-Potassium Stimulated Adenosine Triphosphatase Activity in Nerve-Ending Particles 180
Enzymes Related to Neurotransmitter Synthesis and Degradation and to Cyclic Nucleotide Control 184

Neurophysiological Studies 185
Evoked Potential Ontogeny 185
Seizure Susceptibility 188
Sleep 190
An EEG Power Spectral Atlas for the Developing Rat 194

Neurobehavioral Studies 212
Neuropharmacological Indices of Altered CNS Functioning in Protein Malnourished Rats 212
Performance on a Learning Task in Protein Malnourished Rats 214
Mother and Pup Behavior in Suckling Period 215

Reversal Studies 219

General Summary and Overview 219

References 221

NEUROSCIENCE & BIOBEHAVIORAL REVIEWS

VOLUME 2 NUMBER 4 WINTER 1978

CONTENTS

Molecular theory of obesity, sterility and other behavioral and endocrine problems in genetically obese mice (*ob/ob*). MARGULES, D. L. 231

The determinants of exploration and neophobia. COREY, D. T. 235

Bird orientation and the geomagnetic field: A review. OSSENKOPP, K-P. and R. BARBEITO 255

The insular region: Part of the prefrontal cortex? MARKOWITSCH, H. J. and M. PRITZEL 271

Response to the maternal pheromone in the rat as protection against necrotizing enterocolitis. MOLTZ, H. and S. J. KILPATRICK 277

The ontogeny of feeding and drinking: Effects of early brain damage. ALMLI, C. R. 281

An analysis of the variance in meal patterning. DE CASTRO, J. M. 301

Behavioral influences of the neuropeptides ACTH and MSH: A methodological review. BECKWITH, B. E. and C. A. SANDMAN 311

Food motivation in hypothalamic hyperphagic rats reexamined. SCLAFANI, A. 339

A theory of behavior, based on "rest principle" control of the strength of neural connections. SINCLAIR, J. D. 357

ANNOUNCEMENTS

January 24–26, 1979. Philadelphia. Biological and Behavioral Aspects of Salt Intake. 367

April 11–12, 1979. Dallas. International Symposium on Fever. 368

April 18–20, 1979. Brindisi, Italy. European Society for Neurochemistry. Multidisciplinary Approach to Brain Development. 369

May 7–9, 1979. Bethesda. International Peptide Symposium. 370

Fellowship in Nutrition. 371
